

Jordan Vinicius Barbosa de Oliveira

Software Developer

[Portfólio](#) | [LinkedIn](#) | [GitHub](#)

PERSONAL INFORMATION:

08/12/1999

813, Elisa Avenue Street

São Vicente – Gravataí - RS

Phone: (51) 99740-5759

E-mail: jordan.frontdev@hotmail.com

OBJECTIVE:

I aim to learn from developers who are more experienced than I am. I am keen on staying up-to-date with market trends and quickly adapting to new technologies, and I have a knack for autonomous learning.

SKILLS:

- React.js, Next.js
- Javascript (ES6+, OOP)
- HTML/CSS / Sass
- SQL
- Version control with GIT
- Fluent in English

PROJECTS AND EXPERIENCE:

BetBuddy: <https://betbuddy.netlify.app/>

Description: WebApp for betting registration created during the Dell selection process, which helped me advance to the next stage.

Technologies used: React.js and React Router to enhance interactivity.

Features:

- The system collects better data and their 5-number guesses, either manually inputted or automatically generated using the "Quick Pick" function.
- Draw function: 5 random numbers are drawn, and if there are no winners, the system redraws up to 25 times.
- Outcome phase: Displays all drawn numbers, list of winners if any, most chosen numbers, and prize breakdown.

Learnings: Deepened my understanding of componentization and state concepts in React.

Freelance in Logo design: <https://www.behance.net/jordanfrontdesign>

Description: Executed numerous logo design projects for clients as a freelancer. Worked independently from initial concept to final delivery, closely collaborating with clients to grasp their needs and ensure satisfaction.

Demonstrated Skills:

- Creativity and graphic design abilities.
- Effective communication with clients to understand and meet their expectations.
- Ability to work autonomously and manage complete design projects.
- Delivery of high-quality results within defined timelines.

EDUCATION:

- **Analysis and Systems Development** – Estácio – 3rd semester, expected completion - August 2025
- **Technical course in programming** (Database, Programming Logic, Java, UI Design, JavaScript, CSS, and HTML) – QI College & Technical School – 1 year and 6 months
- **QI Fly English** - QI College & Technical School – 1 year and 6 months (Advanced English)
- **QI Professional Training** – QI College & Technical School – 1 year (Office Package and Administrative Tasks)
